### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1, 7-8, 24, 30-31, 47, 49, 51-59, drawn to methods and products for detecting *Fusarium*, classified in class 435, subclass 6, 536/23.1.
  - II. Claims 32-33, drawn to methods of detecting *Muscor*, classified in class 435, subclass 6.
  - III. Claims 24, 58-59 are drawn to nucleic acids of *Aspergillus* and methods of detecting using SEQ ID NO: 5, classified in class 435, subclass 6.
2. The inventions are distinct, each from the other because of the following reasons:

The inventions of Group I and II and III are patentably distinct methods because they each have different objectives, different uses, different reagents and different method steps. The method of Group I is for detecting a distinct genus and species from Group II or III. The search of the different genus and species would require a separate search. It is noted that Claim 24, from which Claims 32 and 33 depend has been amended to be specific to *Fusarium*. Therefore the methods are distinct over one another. With respect to Claims 24, 58 and 59, the claims appear to contain sequences to *Aspergillus*, namely SEQ ID NO: 5.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by the different classifications and their divergent subject matter, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Susan Siegal on December 10, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to examiner Jeanine Goldberg whose telephone number is (571) 272-0743. The examiner can normally be reached Monday-Friday from 7:00 a.m. to 4:00 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gary Jones, can be reached on (571) 272- 0745.
